

# **Terms of Business and Conditions of Participation ILA 2020**

**ILA Berlin, May 13 – 17, 2020  
Berlin ExpoCenter Airport**

## **Contents**

<b>1 Organizers</b>	<b>11 Documentation, advertising, sales</b>
<b>2 Important dates</b>	11.1 Documentation of the event, organizers' advertising
<b>3 Registration, conclusion of contract, restrictions</b>	11.2 Exhibition catalogue
3.1 Registration	11.3 ILA Marketing Package prices and services
3.2 Joint exhibitors	11.4 Exhibitor's advertising
3.3 Confirmation of participation	11.5 Direct sales
3.4 Integral parts of the contract	11.6 GEMA fees
3.5 Restrictions on exhibitors, exhibits, and planned display flights	<b>12 Technical guidelines</b>
3.6 Deviations from registration	<b>13 Official approvals</b>
<b>4 Terms of payment</b>	<b>14 Stand design</b>
4.1 Due dates	14.1 Appearance during the exhibition
4.2 Assignment and offsetting of claims	14.2 Contractual penalty
4.3 Objections	14.3 General information on stand equipment and installations
4.4 Lessor's lien	<b>15 Stand build-up and dismantling</b>
<b>5 Stand/area allocation</b>	15.1 Dates
5.1 Basic principles	15.2 Build-up, delivery
5.2 Reallocation of stands, exhibits and aircraft	15.3 Dismantling, removal, stand clearance
5.3 Relocation, alteration, transfer of third parties	<b>16 Rental of chalets</b>
<b>6 Exhibits, industrial property rights</b>	<b>17 Rental and installation of containers</b>
6.1 Prohibited exhibits	<b>18 Security and order</b>
6.2 Removal, replacement	18.1 Security regulations
6.3 Exclusions	18.2 Barriers, fences
6.4 Industrial property rights	18.3 Admittance to the exhibition area/ passes
<b>7 Withdrawal from the contract</b>	18.4 Vehicle entrance to the exhibition area
7.1 Withdrawal by the exhibitor	18.5 Parking
7.2 Withdrawal by Messe Berlin GmbH	18.6 Animals
<b>8 Force majeure</b>	18.7 Grounds security
8.1 Exhibitors	<b>19 Cleaning and waste disposal</b>
8.2 Organizers	19.1 Cleaning
<b>9 Liability and warranty, insurance</b>	19.2 Waste disposal
9.1 Liability of Messe Berlin GmbH	<b>20 Catering</b>
9.2 Liability and insurance of the exhibitor	<b>21 Final provisions</b>
<b>10 Supplementary provisions for exhibitors of aircraft/participants in flight operations/scenic flights</b>	21.1 Written form
10.1 Legal basics for ILA-flight operations	21.2 German law
10.2 Additional permits and documents	21.3 Place of performance and jurisdiction
10.3 Obligations of flight operation personnel	21.4 Redemptory clause
10.4 Scenic flights from the exhibition grounds	<b>22 Data protection regulations</b>
10.5 Flight operations – Miscellaneous	
10.6 Landing fees (exhibits)	
10.7 Aircraft and ground handling services	
10.8 Landing and parking fees for aircraft used to transport staff and/or material	

## 1 Organizers

ILA Berlin is organized by the German Aerospace Industries Association (Bundesverband der Deutschen Luft- und Raumfahrtindustrie e.V. - BDLI) and will be held at Berlin Expo-Center Airport. Messe Berlin GmbH has been commissioned to prepare and execute this event. Messe Berlin GmbH is the legal and commercial sponsor of this event and is entitled to assert any claims ensuing therefrom.

## 2 Important dates

Duration of the event

May 13 – 17, 2020  
ILA Berlin 2020

May 13 – 17, 2020  
Conferences

May 13 – 15, 2020  
International Supplier Center

May 15 – 17, 2020  
ILA CareerCenter

Deadline for "Early Booking"  
Sept. 30, 2019  
(except for aircraft)

Start of hall planning  
Febr. 03, 2019

Opening hours

for exhibitors\*  
May 13 – 17, 2020, 8 a.m. – 7 p.m.

for trade visitors only\*  
May 13 – 15, 2020, 10 a.m. – 6 p.m.

trade visitors and general public\*  
May 16 – 17, 2020, 10 a.m. – 6 p.m.

Set-up start\*  
April 30, 2020, 7 a.m. – 10 p.m.<sup>1</sup>

Set-up end\*  
May 12, 2020, 7 a.m. – 10 p.m.<sup>1</sup>

Dismantling start\*  
May 18, 2020, 7 a.m. – 10 p.m.<sup>1</sup>

Dismantling end\*  
May 23, 2020, 7 a.m. – 10 p.m.<sup>1</sup>

\* Subject to change

1) Static Display Area from 7 a.m. - 10 p.m.

## Marketing Package end

10 weeks prior to the ILA 2020

Stands must be furnished and completed by 6 p.m. on May 12, 2020. All packing material must be removed by 12 noon on the same day, otherwise it will be removed by order of Messe Berlin GmbH at the exhibitor's expense.

## 3 Registration, conclusion of contract, restrictions

### 3.1 Registration

Exhibitors must register online at [www.ila-berlin.com](http://www.ila-berlin.com). They have to send the completed registration back. Receipt of the registration forms by exhibitors confers no claim to subsequent admission to the exhibition. Registration forms received by the organizers after the start of hall planning will be considered solely on a case-by-case basis as remaining space allows.

ILA exhibitors bringing aircraft in flying condition to the exhibition (for flight display, static display, or as special exhibits in the halls) must also complete the online registration form for aircraft before the registration deadline so that a space in the static display area can be allocated and in order to ensure receipt of necessary flight operation information (e. g. for arrival and departure).

For non-flyable craft, it must be ensured that the rented display area is of sufficient size to completely accommodate the exhibit (wing span/rotor blade diameter x length).

Exhibitors displaying goods subject to the provisions of the German Military Weapons Control Act (Kriegswaffenkontrollgesetz – KrWaffKontrG) must list these at the latest 4 weeks before the exhibition opens and shall affirm that such goods will be handled in accordance with the regulations of the Federal Republic of Germany.

Any military weapons exhibited at ILA may only be used for display purposes (see form 1.10 "Statement concerning Military Weapons" online at [www.ila-berlin.com](http://www.ila-berlin.com)).

Following the exhibition, these goods must be removed from the exhibition grounds immediately.

Foreign exhibitors of military weapons must remove such weapons from the territory of the Federal Republic of Germany immediately after the close of the exhibition and in coordination with German customs, if required.

### 3.2 Joint exhibitors

If several exhibitors wish to combine to rent a stand they shall name an authorized representative in their registration forms to be the sole negotiator in dealings with Messe Berlin GmbH. This authorized representative shall be liable for his own faults and those of other persons on whose behalf he is authorized to act. The participating exhibitors shall be liable jointly and severally to Messe Berlin GmbH.

### 3.3 Confirmation of participation /Admittance

Messe Berlin GmbH, in consultation with the BDLI, shall make the final decision on participation in ILA 2020. A rental contract between the exhibitor and the organizers shall be concluded only after a written confirmation of participation (i.e. the admission of the exhibitor and the exhibits as designated in the registration forms) has been issued. After admittance, exhibitors will receive login information for the exhibitors' service area on the BECO website (see item 3.4b)

### 3.4 Integral parts of the contract

- Online registration
- BECO Webshop (online platform for any additional services like technical installation, stand construction, parking permits, etc., as well as marketing and sponsoring options)
- Conditions of Participation in the valid version
- Flight Operation Regulations (for exhibitors of aircraft in flying condition)
- Technical Guidelines Berlin ExpoCenter Airport

By clicking on the "Book button" in the online registration, the exhibitor accepts compulsory the terms and conditions of the ILA 2020 as well as the Technical Guidelines of Berlin ExpoCenter Airport. He has to ensure that the people who work for him at the event also receive the entire contract.

### 3.5 Restrictions on exhibitors, exhibits, and planned display flights

Messe Berlin GmbH may, for pertinent and justifiable reasons, completely or partially exclude individual exhibitors from participating, or restrict the event to specific groups of exhibitors, if this is deemed necessary in order to achieve the purpose of the event (cf. Section 6 on Exhibits). This is most likely to occur if incompatibility with the Military Weapons Control Act (KrWaffKontrG) is discovered or if the planned flight displays violate flight display guidelines of the Federal Republic of Germany, or if it is foreseeable that the aircraft involved will not be demonstrably covered by appropriate insurance coverage.

### 3.6 Deviations from registration

If Messe Berlin GmbH accepts registration for exhibition space or exhibits under the proviso that these may be expanded, reduced or altered, Messe Berlin GmbH shall be bound by this amended offer for a period of two weeks.

## 4 Terms of payment

### 4.1 Due dates

Down payment for the stand rental and ancillary costs must be paid by the due date specified in the down payment invoice (four weeks after admission of the exhibitor at the latest, prior to the start of the event at any rate). Upon chalet registration the customer has to pay 10,000.00 EUR plus VAT right away, regardless of the placement. The customer will be charged with this amount by Messe Berlin with a down payment invoice immediately after registration. Payment must be made to one of the bank accounts of Messe Berlin GmbH indicated on the invoice. A final invoice will be sent after the event's end. Please indicate the invoice and customer numbers when making payments. For each alteration of invoices an additional handling fee of 100.00 EUR plus VAT will be charged.

### 4.2 Assignment and offsetting of claims

Assignment of claims against Messe Berlin GmbH is excluded. The offsetting of claims is only permissible in the case of non-litigious or legally established counterclaims.

### 4.3 Objections

Objections to invoices can only be considered if they are lodged with Messe Berlin GmbH in writing within 14 days of the date of invoice.

### 4.4 Lessor's lien

In order to secure its claims, Messe Berlin GmbH may exercise its lessor's lien and may sell, following written notification of its intentions, any items it holds as security by private sale. Messe Berlin GmbH shall only be liable for damage to the items retained as security in the event of willful intent or gross negligence.

## 5 Stand/area allocation

### 5.1 Basic principles

In allocating display locations, Messe Berlin GmbH considers the subject matter and organizational layout of the particular event and the facilities available. Requests for particular stands or display areas will be honored where possible. Each exhibitor is obliged to find out for himself such details

as the location and the precise dimensions of the assigned stand and what installations, etc. are included as well as details concerning the surface conditions in the outdoor display area.

### 5.2 Reallocation of adjoining stands and exhibits

At the start of the event, the location of other stands and exhibits may have -changed from the time of acceptance. This does not imply any rights to claims for compensation.

### 5.3 Relocation, alteration, transfer of third parties

Should Messe Berlin GmbH wish to make any alterations to previously allocated stand areas (e. g. structural changes, new installations, rearrangement of aircraft made necessary due to safety or flight operations requirements, etc.), the affected exhibitors will be notified in due time. Such notification may be made after alterations have been made if these are necessary to prevent imminent hazards. Relocation may occur if justified by urgent and pertinent grounds. In such a case, every attempt will be made to allocate a new location of equal value. Affected exhibitors may withdraw their registration within one week of receiving notification of relocation and before March 4, 2020. No claims for damages exist for either party.

Exchange of the allocated stand with another exhibitor, or the partial or complete transfer of the stand to third parties, is not permitted unless an agreement to this effect has been made with Messe Berlin GmbH.

## 6 Exhibits, industrial property rights

### 6.1 Prohibited exhibits

Combat weapons, ammunition, explosives, radioactive material or external tanks containing fuel or an air-fuel mixture may not be displayed or transported either on the exhibition areas or on flights entering or departing from the exhibition grounds.

### 6.2 Removal, replacement

Only the agreed exhibits may be displayed. They may not be removed by exhibitors before the conclusion of ILA. Messe Berlin GmbH shall be justified in preventing the removal of such displays. Exhibits may only be supplemented or replaced if approved in writing by Messe Berlin GmbH. Any such additions or replacements must be made within the hour before or the hour after the daily opening times.

### 6.3 Exclusions

Messe Berlin GmbH may insist that exhibits be removed if they were not included in the stand rental agreement, if they constitute an annoyance or hazard, or if they are not compatible with the objectives of the event. If the exhibitor fails to comply with this demand, Messe Berlin GmbH will itself remove the exhibits, taking legal steps if necessary, at the exhibitor's expense.

### 6.4 Industrial property rights

Copyrights and other rights of protection of industrial property for the exhibits must be obtained by the exhibitors themselves.

## 7 Withdrawal from the contract

### 7.1 Withdrawal by the exhibitor

If an exhibitor withdraws from the contract without having any legal reason for doing so, or does not take part in the exhibition, the rental charge is payable in full. 50% of the space rental fee will be charged for conferences cancelled after March 4, 2020. Costs incurred by exhibition organizers on behalf of the exhibitor shall be reimbursed by the exhibitor.

If an exhibitor cancels his participation in an event, and if another lessee can be found for the location, Messe Berlin GmbH shall retain a claim, amounting to 25% of the invoiced stand rental charge, against the initial lessee to cover costs. If no new lessee can be found, due to time constraints, for instance, the exhibitor shall pay 100% of the rental charge. If Messe Berlin GmbH is successful in finding a new exhibitor to rent the abandoned space, but the overall space rented is reduced due to the original exhibitor's withdrawal, the original exhibitor must still pay the full rental -charge as agreed. The onus is on the exhibitor to prove that such costs were not incurred by Messe Berlin GmbH or were not incurred to this amount. Messe Berlin GmbH reserves the right to assert further claims.

### 7.2 Withdrawal by Messe Berlin GmbH

Messe Berlin GmbH is entitled to withdraw from the contract under the following circumstances:

- a) If full payment for the rental has not been received at the latest by the date stated in the order confirmation and invoice for stand rental and if the exhibitor fails to pay even after having been granted an extension. Messe Berlin GmbH is entitled, but not obliged, to make the rented space available to others as it sees fit.
- b) If the exhibitor repeatedly defies safety, order and flight operation instructions and requirements, or acts in violation of

house rules or in an unethical manner, and fails to refrain from such conduct even after receiving a warning.

- c) If the person of the registered exhibitor no longer satisfies the requirements for acceptance, or if Messe Berlin GmbH becomes subsequently aware of reasons which, had they been known in time, would have justified refusing admission to the exhibitor. This applies in particular if bankruptcy or settlement proceedings have been instituted, or if the exhibitor has become insolvent. The exhibitor shall notify Messe Berlin GmbH immediately of such situations.
- d) If an exhibitor participating in flight operations fails to submit proof of insurance and refuses to pay for the cost of subsequent insurance by Messe Berlin GmbH.
- e) If the stand is not obviously occupied in due time, i.e., at least 24 hours before the official opening of the exhibition.
- f) If items other than those listed in the Product Group Index are displayed. The right to demand full payment shall remain unaffected.

In the cases mentioned above, Messe Berlin GmbH may assert claims for damages. -Section 7.1 shall apply mutatis mutandis.

## 8 Force majeure

### 8.1 Exhibitors

If the exhibitor is prevented from participating in the event for reasons which are on the exhibitor's side, the stand rental charge shall be reduced by half. The provisions of Section 7.1 shall apply mutatis mutandis.

### 8.2 Organizers

- a) Cancellation of the event  
If Messe Berlin GmbH is unable to hold the event for reasons beyond its control or that of the exhibitor, claims for the stand rental charge shall become invalid. However, Messe Berlin GmbH may invoice the exhibitor for the cost of any work commissioned by the exhibitor, unless the exhibitor can prove that the results of the work are irrelevant to him.
- b) Postponement of the event  
If Messe Berlin GmbH is able to hold the event at a later date, exhibitors shall be notified immediately. Exhibitors are entitled to cancel their participation in this rescheduled event within one week of receipt of this notification. In such cases, stand rental charges will not be payable to Messe Berlin GmbH.
- c) Event in progress  
If, for reasons of force majeure, Messe Berlin GmbH is obliged to shorten or cancel an event that is already in progress or to limit flight demonstrations, exhibitors shall not be entitled to claim reimburse-

ment, nor shall they be exempt from the obligation to pay the stand rental charge.

## 9 Liability and warranty, insurance

### 9.1 Liability of Messe Berlin GmbH

Unless otherwise explicitly stated, the Messe Berlin GmbH shall only assume liability under the circumstances described in 9.1.1. 9.1.1 Messe Berlin GmbH shall assume unlimited liability for damage caused -willfully or by gross negligence by the Messe Berlin GmbH, its legal representatives and/or its management. Messe Berlin GmbH shall assume liability on its merits for damage caused by gross negligence by vicarious agents. In terms of amount, liability is limited to damage that could typically be expected to occur under contracts of the type at hand.

The Messe Berlin GmbH shall assume liability on its merits for any infringement of substantial contractual obligations. Substantial contractual obligations are obligations for which adherence is of particular importance for attaining the object of the contract (cardinal obligations). In the case of an infringement of a cardinal obligation – and insofar as the case is not covered by paragraph 9.1.1 – liability in terms of amount is limited to damage which could typically be expected to occur under contracts of the type at hand.

Liability limitations as per 9.1.1, Paragraphs 1 and 3 do not apply to liability for the absence of warranted qualities, liability according to product liability laws or liability in the case of death, bodily injury or injury to health.

Messe Berlin GmbH shall not assume absolute liability for any initial defects displayed by rented items.

9.1.2 Spatial, organizational and temporal limits as well as climatic conditions and conditions for approval may lead to undesired limitations to flight operations related to the exhibition. Normal airport operations (scheduled traffic, charter traffic, general aviation) shall continue during the exhibition without giving general priority to the exhibition. Messe Berlin GmbH therefore offers no guarantee that flight operations will be possible. The participating aviation authorities, particularly Deutsche Flugsicherung (German air traffic control) and other regulatory -aviation authorities, as well as Deutscher -Wetterdienst (German weather service), are in the fulfillment of their capacities, not employees or vicarious agents of Messe Berlin GmbH. This is also true for all other agents of the public authority as well as for nur Flughafen Berlin

Brandenburg GmbH, insofar as this company acts, or is obliged to act, as the airport operator. Messe Berlin GmbH assumes no responsibility, guaranty or liability in this respect. Other exhibition participants and visitors and other users of the airport and its surrounding air space are likewise neither employees nor vicarious agents of Messe Berlin GmbH. Messe Berlin GmbH therefore assumes no responsibility, guaranty or liability in this respect.

Insofar as Messe Berlin GmbH assigns alternate airfields or emergency alternates, or indicates further options for take-off and landing, it assumes no responsibility, guaranty or liability for flight operations at said sites. Exhibitors are informed that Messe Berlin GmbH cannot and will not release itself from liability in its relations to third parties, specifically visitors. Insofar as Messe Berlin GmbH offers or brokers services by third parties, it assumes no responsibility, guaranty or liability. This also applies to connecting flights and shuttle services.

Messe Berlin GmbH makes explicit notice that it can offer no guaranty for the preconditions and execution of aircraft handling. In particular participants have to make sure that tow bars, ground engineering equipment, and fuels and lubricants required for their aircraft are available.

### 9.2 Liability and insurance of the exhibitor

The liability of exhibitors, unless otherwise arranged, shall be governed by general rules. We recommend that exhibitors obtain adequate insurance.

Aircraft involved in ILA must carry third-party liability insurance or state liability coverage. Coverage must at least amount to the sums quoted in Article 37 of the -German Air Traffic Act (LuftVG). Currently, minimum coverage is:

MTOW DS in Special Drawing Rights (SZR) in kg in accordance with EU Regulation 785

0–499	750,000
500–999	1,500,000
1,000–2,699	3,000,000
2,700–5,999	7,000,000
6,000–11,999	18,000,000
12,000–24,999	80,000,000
25,000–49,999	150,000,000
50,000–199,999	300,000,000
200,000–499,999	500,000,000
500,000–	700,000,000

The weight is understood as being the maximum allowable take-off weight for the aircraft.

When insured in foreign currency, insurance

coverage for foreign participants shall be calculated according to the official -middle rate of the previous working day. Should the guidelines quoted in 10.1 b) require a higher third-party liability insurance coverage for the event, the participant shall be obliged to hold insurance coverage in this amount.

The party held liable for damages under Article 33 of the German Air Traffic Act (LuftVG) shall be liable to injured parties to this higher amount, even where these damages exceed the amounts stipulated

in Article 37 of the LuftVG. This allows injured parties to benefit above the legally established liability limits via contracts for the benefit of third parties; the figures in Article 37, Para. 2–4 of the LuftVG shall apply *mutatis mutandis*. All further legal liability shall be unaffected, particularly that governed by Articles 44 ff and 53 ff of the LuftVG, but also under the laws prevailing in the aircraft's country of origin and under international regulations.

Confirmation of insurance or liability coverage in the amount stipulated in these Terms, showing that the aircraft is insured for the duration of ILA or for the day or days when it is to be used, is required in the original for any flight operations related to ILA (including display and acceptance flights) as well as for static display of aircraft. This confirmation must be submitted before the display and acceptance flight or, in exceptional cases, before the ILA-related flight, or before an exhibit is presented at its stand to the public. The period for rehearsal flights, maintenance test flights and acceptance flights at Berlin Expo Center Airport must be included in this insurance or state liability coverage.

In principle, insurance or liability confirmation cannot be accepted in the form of a photocopy, facsimile or other reproductions. Should proof of insurance coverage and liability protection not be rendered in due time and form, Messe Berlin GmbH reserves the right – without assuming any obligations – to take out insurance coverage in the required amount, in its own name and for the account of the participant, with a German third-party liability insurer belonging to the Deutscher Luftpool. Messe -Berlin GmbH or its agents shall be entitled to make the participation in ILA flight operations dependent on the reimbursement of the costs of such insurance coverage.

## 10 Supplementary provisions for exhibitors of aircraft/participants in flight operations/scenic flights

Insofar as the event has an aeronautic character, the exhibitors, the flight personnel, the airfield operators and the aviation authorities shall take primary responsibility, above and beyond that of Messe Berlin GmbH. The following provisions take special account of the reduced liability of Messe Berlin GmbH; on the other hand, exhibitors and other participants need to be involved as closely as possible in the requirements governing safety and order. The top priority with respect to ILA flight operations is the preservation of public safety and order. Exhibitors and those in their employ are not relieved of responsibility for flight operations safety merely through their observation of the regulations and instructions.

As far as the use of aircraft is concerned, the valid flight operations regulations, event permit and imperative provisions of air traffic law shall take precedence. All regulations named and otherwise mentioned in these Terms of Business and Conditions of Participation can be consulted as of the start of the exhibition in the Central Coordinating Office (ZEKO) and are available in writing on request. Official aviation regulations are an integral part of these Terms of Business and Conditions of Participation and hence of the contract, effective as of their availability and their time of display in the Pilot Briefing Room and in the ZEKO.

For the purpose of these contractual provisions, aircraft shall include airplanes, rotary wing craft, airships, gliders, powered gliders, free and tethered balloons, kites, parachutes, model aircraft, air sports equipment and other equipment intended for the use of air space, specifically to include spacecraft, rockets and similar missiles (Article 1 II, Air Traffic Act/LuftVG).

The "operation of aircraft" at the exhibition is understood within the same sense as used by German air traffic regulations, particularly Article 33 of the LuftVG.

Exhibitors and their personnel are required by Messe Berlin GmbH to adhere strictly to the flight regulations and to comply with the orders and instructions issued by the responsible authorities stemming from the said flight regulations.

### 10.1 Legal basics for ILA-flight operations

Specifically, these include the following regulations (in no particular order; list is not exhaustive):

- a) The Air Traffic Act (LuftVG) and the regulations issued on its basis, particularly the

Air Traffic Regulations (LuftVO), Air Traffic Licensing Regulations (Luft-VZO), Air Traffic Personnel Regulations (LuftPersV) and Aircraft Operations Regulations (LuftBO), as well as their pursuant administrative directives; the general guidelines for the operation of manned aircraft not requiring licensing in the Federal Republic of Germany shall particularly be observed when operating hang gliders, gliders and microlight aircraft. The import, transport and display of weapons which can be used to conduct war are governed by the Military Weapons Control Act (KrWaffKontrG) and require permits.

- b) The directives issued by the German aviation authorities for the licensing of flight displays at civil aeronautics exhibitions in their valid versions and similar regulations or directives put into effect by communities of nations of which the Federal Republic of Germany is a member, or by an international aeronautics organization in agreement with the German aeronautic authorities.
- c) Regulations on emissions of pollutants and on environmental protection, particularly on noise abatement.
- d) The current ILA flight operations regulations, with appendices (see [www.ila-berlin.com](http://www.ila-berlin.com)).
- e) The special regulations on the use of air space and the airport issued in conjunction with the event.
- f) The airport operator's rules for airport use.

### 10.2 Additional permits and documents

These furthermore include (in no particular order, list is not exhaustive):

- a) Orders and instructions issued by air traffic authorities and other official bodies with jurisdiction in the prevention of danger to public safety, and by Berlin Expo Center Airport, in its capacity as an airport operator.
- b) Permits, including their associated stipulations, particularly the aerospace exhibition permit issued to Messe Berlin GmbH.
- c) Instructions from the flight director or his deputy, appointed by Messe Berlin GmbH.

Flight demonstrations shall not be allowed without written permission from the flight director or his deputy. Instructions from the aviation authorities shall remain unaffected.

### 10.3 Obligations of flight operation personnel

Personnel participating in flight operations shall have the following obligations:

- a) Operating permits (flight permit, preliminary flight permit), insurance docu-

ments, noise rating certificates, to the extent required by Article 11 c of the LuftVO, as well as the permits (licenses) of the responsible aircraft pilots shall be produced on the request of Messe Berlin GmbH appointees; those specifically empowered to make such inspections is the flight director appointed by Messe Berlin GmbH.

- b) Aircraft pilots are required to obtain the necessary permits from the competent aviation authorities, particularly from air traffic control, insofar as these are not already covered by the aviation exhibition permit, specifically permits for special use of air space as defined in Articles 15 and 16 of the LuftVO and Article 31, No.16 of the LuftVG.

#### **10.4 Scenic flights from the exhibition grounds**

It is not permitted to offer or undertake, either commercially or privately, scenic flights from the exhibition grounds due to the expected increased levels of airport traffic and simultaneous airshow traffic. Exceptions will only be made in the case of legitimate interest and in direct coordination with the flight directorate and if a scenic flight license has been attained.

#### **10.5 Flight operations – Miscellaneous**

All issues of flight operations must be coordinated on the basis of the flight operations regulations with the Central Coordinating Office (ZEKO), which is responsible for flight planning, consulting, coordination and technical support of exhibition flight operations as well as for compiling the flight demonstration program on the exhibition grounds. It is especially imperative that all flights to and from the ILA grounds be coordinated with the ZEKO through the allocation of ILA slot numbers.

#### **10.6 Landing and Service fees (exhibits)**

A landing fee will be charged once by the organizer for every landing of any aircraft registered as an exhibit. Following services are included in this fee: Marshalling, single towing, basic operation services (AIS/WX), aircraft parking (chocks). The fee will be charged on a MTOW basis.

#### **10.7 Exhibition fees**

An exhibition fee will be charged by the organizer for every aircraft registered as an exhibit. The fee will be charged on a MTOW basis. In this case the usable area will have a diamond shape generated by the aircraft nose, tail and wingtips. (for helicopters: rotor plane + tail boom). This fee does not apply if the aircraft is parked within a rented exhibition space in the outdoor area.

#### **10.8 Ground handling services**

Typical ground handling services (e.g. towing, stairs, ...) can be ordered at the Ground / Display Management Office. The costs will be charged depending on the effective usage. The price list will be published on our website 8 weeks before the exhibition. Previous price information will be provided by the sales team on request.

#### **10.9 Additional products and services**

Additional products and services (e.g. tent structures, cycle barriers, catering, cleaning, security, ...) will be organized and charged based on written orders or ad hoc assignment. Published prices of the service providers will apply.

#### **10.10 Landing and parking fees for aircraft used to transport staff and/or material**

Aircraft which are used to transport staff and/or material, without being registered as an exhibit will be charged for every turnaround based on the conditions mentioned under 10.6.

These aircraft may be parked outside or inside the exhibition grounds depending on the ground management discretion.

#### **10.11 Other flight related costs**

Air traffic control fees will be charged by the DFS (German ATC Agency) directly. Aircraft fuel and other flight related extra services can be arranged by the ground management but needs to be balanced directly with the providers. Any other services required for a safe and secure operation or any other customer related action needs to be coordinated and authorized by Messe Berlin GmbH in advance.

### **11 Documentation, advertising, sales**

#### **11.1 Documentation of the event, organizers' advertising**

Messe Berlin GmbH is entitled to arrange for photographs, drawings, films or video recordings of events at the fair, and of structures, stands, exhibits and persons present, and to use these for advertising or press releases. No objections to this may be raised by the exhibitors for any reason. This also applies to recordings made by the press or television crews with the approval of Messe Berlin GmbH. Exhibitors agree to waive all claims based on copyright infringement.

#### **11.2 ILA Quickfinder**

The Quickfinder is available free of charge at the exhibitor service area on the exhibition grounds.

#### **11.3 ILA Marketing Package prices and services**

With the Marketing Package, the Messe Berlin GmbH is offering its exhibitors a package of selected marketing tools with which fair participation and presentation within the market can be optimized. The costs are mandatory for all main exhibitors and in the form of a lump-sum dependent upon stand size. See detailed description in the document ILA Marketing Package ([www.ila-berlin.com](http://www.ila-berlin.com)). Aircraft with an MTOW of less than 5.7 t are exempted from this obligatory Marketing Package.

#### **11.4 Exhibitor's advertising**

Advertising by means of loudspeakers, -slides or films, or the inclusion of performances or shows require the written approval of Messe Berlin GmbH. Written approval must also be obtained for the use of other equipment and installations intended to enhance the impact of advertising either optically or acoustically. Advertising of a political nature is strictly prohibited.

The exhibitor is aware that a running commentary or sound track will be broadcast via the grounds' public address system during flight demonstrations. The exhibitor waives all rights to raise objections on the grounds that such broadcasting is detrimental to the exhibitor's own advertising, even if said advertising was approved in principle by Messe Berlin GmbH.

Photographs or drawings for commercial purposes may only be made with the express approval of Messe Berlin GmbH. Apart from photographers approved by the Messe Berlin GmbH and holding the appropriate pass, only the photographers of the exhibiting company are granted permits for taking photographs. The relevant applications (including for night work) should be submitted to Messe Berlin GmbH no later than one week prior to the start of the event. Entering neighboring stands is only allowed with the permission of the relevant stand owners. Press photographers holding the appropriate pass do not require special approval from Messe Berlin GmbH in order to take photographs within the halls and in the marked public viewing area during the hours that the event is open. Advertising of any kind is only allowed on the stand if it refers to the exhibitor's own company and the products on display. Advertising on behalf of other companies is not permitted, and in particular no advertising on behalf of manufacturers' clients is permitted. The display or distribution of printed advertising material or samples is not permitted outside the rented stand neither may any writing be affixed to the walls of the halls. This also applies analogously to

the distribution of printed advertising on cups or cans for drinks, on gas-filled balloons or similar items. Any unauthorized advertising will be removed by exhibition management at the exhibitor's expense. Should such advertising material be moved to the flight operations area by wind or any other influence or action, the originator shall be liable for any pertinent damage and bear the extra cost for cleaning/removal.

Exhibitors are also liable for infringements of these regulations by their co-exhibitors or by other companies represented on the stand.

External lettering on the stand may only consist of the company name, company logo or manufacturer's emblem.

All advertising, including that for third parties, is prohibited within a specified restricted area outside the exhibition grounds.

Dealers' presentation, press conferences and similar events in the vicinity of the stand are only possible outside the official opening hours of the exhibition, provided that such events have been registered with Messe Berlin GmbH and official approval has been issued in writing. The cost of additional security (e.g. security staff, etc.) must be borne by the exhibitor.

#### 11.5 Direct sales

Direct sales of small goods, magazines, books, model aircraft, etc. must obtain written permit from Messe Berlin GmbH which is chargeable at a fixed price of 300.00 EUR (+ VAT).

#### 11.6 GEMA fees

A GEMA license must be obtained for the public performance or reproduction of copyrighted music by sound media or audiovisual media, and for musical performances. Applications are found in the BECO Webshop.

### 12 Technical guidelines

The technical guidelines, statutory construction and fire regulations and the regulations of Messe Berlin are parts of the contract.

You will find these regulations on the internet at [www.ila-berlin.com](http://www.ila-berlin.com).

### 13 Official approvals

Drawings of single-storey stand structures in the halls do not need to be submitted for approval, provided that design and

construction of the stand conform to the Technical Guidelines. If a stand occupies an entire hall, halls or large sections of a hall that are intersected by public routes/halls, the respective stand or event area plans of single-storey structures have to be submitted to Messe Berlin for inspection and approval.

Messe Berlin is prepared to inspect stand construction plans submitted (in duplicate) by an exhibitor, if so requested.

Permits are required for all other stand structures, special installations and designs, particularly those in the outdoor area. At least ten weeks before the exhibition begins. Messe Berlin GmbH must receive structural drawings for the display stand, design drawings with construction details, map indicating stand and emergency routes, and the structural analysis and testing book for all structures and/or uses requiring approval. Documentation must be submitted in German or English as a paper copy (in duplicate) and digital files (PDF).

Only after Messe Berlin GmbH/the event technical department issues a written statement for all of the above-mentioned drawings is the proposed stand officially approved. Any costs or fees accrued for the approval/testing process will be borne by the customer/exhibitor.

Should the exhibitor fail to submit documentation relevant for testing, technical aspects, structural analysis or fire prevention, Messe Berlin GmbH reserves the right to execute further measures and/or impose further conditions. Any costs therefore will be borne by the exhibitor.

Documents submitted after the deadline will be subject to additional costs. Structures in the outdoor area must be constructed so as to not impinge upon the protected areas of the airport. This area is indicated in the ILA flight operations document.

Proposed stand construction can only begin once official approval has been granted for the submitted documents. Details can be found in the Technical Notes: Outdoor stand structures as a supplement to Technical Guidelines Section 4.8 (see [www.ila-berlin.com](http://www.ila-berlin.com)). Official approval must be obtained by the exhibitor in advance for structures or performances that go beyond the scope of the Technical Guidelines or the normal scope of the event.

### 14 Stand design

#### 14.1 Appearance during the exhibition

The exhibition stand must be in visual harmony with the exhibition. Messe Berlin GmbH reserves the right to prohibit the construction of inappropriate or inadequately designed stands. The stand must be properly equipped and occupied by suitable professionals during official opening hours for the entire duration of the exhibition. Tarpaulins must be removed from the aircraft on display.

No stands may be vacated before the end of the exhibition. During the exhibition the exhibits may neither be covered nor removed without the approval of exhibition management.

#### 14.2 Contractual penalty

If the exhibitor is culpable of contravening the above regulations, and if warnings are not heeded, Messe Berlin GmbH may impose a contractual penalty of 500.00 EUR per day.

#### 14.3 General information on stand equipment and installations

The general basic configuration of the hall shall be the responsibility of Messe Berlin GmbH. Back and partitioning walls 2.5 m in height shall only be erected on special request (excluding shell scheme stands).

The exhibitor shall be responsible for repairing damage to walls, floors, wiring, etc. All other set-up work may be done at the discretion of the exhibitor; the stand must, however, conform visually to the overall appearance of the hall. A stand may not be closed off from public-access areas. Stand design and exhibit displays must provide for open communication with customers.

Stand boundary walls facing any open aisle may not exceed 30% of the stand length boundary. Exceptions could be possible in agreement with ILA project director and/or opposing exhibitor. Such boundary walls facing the aisle must be suitable decorated with graphics. Any stand construction which includes such stand boundary walls must be submitted for approval.

Set-up and outfitting of the stands must be approved in writing by exhibition management, which reserves the right to reject defective work or remove or modify unauthorized additions and the like at the exhibitor's expense. Stand lighting and illumination may not represent a nuisance to visitors or to neighboring stands.

Electricity, water, telephone and other services are provided on a regular basis by -suppliers approved by Messe Berlin GmbH. -Procedural details are contained in the Exhibitor Manual. Within the outdoor display area, the individual supply with electricity and water can only be assured if the regular registration deadline is respected. Water is not available at all locations in the outdoor area. Please contact the technical department as early as possible to check if water is available. Water required for washing and cooking food or for cleaning utensils which comes in direct contact with food may only be taken from hygienic water taps. It is prohibited to take water from the restrooms.

Stands and constructions in the outdoor display must be designed and insured so that they do not represent a danger to other stands, exhibits or persons in the case of stormy weather (thunderstorms, hail, etc.). Details can be found in the Technical Notes: Outdoor stand structures as a supplement to Technical Guidelines Section 4.8 (see [www.ila-berlin.com](http://www.ila-berlin.com)). Electrical installations within the stand area may be installed by electricians from the exhibitor's company, if desired. In such case, the work must be inspected by a licensed electrical company. Exhibition management shall not be liable for losses or damages resulting from power supply failures.

On request, exhibitors may receive the names of companies who can perform services which go beyond those described in the BECO Webshop.

## **15 Stand build-up and dismantling / advanced stand-build-up/dismantling**

### **15.1 Dates**

Build-up and dismantling times are found in Section 2 of Terms of Business and Conditions of Participation.

Please note different build-up and dismantling schedules if applicable.

The delivery procedures within the exhibition area are given in the "Traffic guide" leaflet. The Traffic Guide will go online about 4 weeks before the event (see [www.ila-berlin.com](http://www.ila-berlin.com)). It is the responsibility of the exhibitor to forward this to his stand builder.

### **15.2 Build-up, delivery**

Delivery of exhibits and stand build-up work shall be done at the exhibitor's own risk and expense. To ensure that this work is carried out efficiently, we recommend contracting the services of the carriers listed in the BECO Webshop.

Exhibitors are required, three days before the start of the exhibition, to clear the display areas and outdoor traffic routes of all items not registered and approved for these areas. All aisles in the halls must be cleared at least one day before the start of the exhibition. If these requirements are not fulfilled, Messe Berlin GmbH reserves the right to clear these areas at the expense and risk of the exhibitor, and to store such items as required. No contract of deposit shall come into effect as a result. Claims for damages against Messe Berlin GmbH are excluded. Flight operations and pedestrian traffic areas must likewise be kept clear of exhibits.

### **15.3 Dismantling, removal, stand clearance**

Exhibitors shall dismantle and clear their stands and remove their exhibits at their own expense and risk. To ensure that this work is carried out efficiently, we recommend contacting the services of the carriers mentioned above.

After the period allowed for dismantling has elapsed, Messe Berlin GmbH is entitled to remove or dispose of exhibits, stand materials, packing materials and refuse – or to arrange for this work to be carried out – at the exhibitor's expense.

For this purpose flight operations areas, display areas and taxiways are to be kept clear until 24 hours after the close of the event. In this respect Messe Berlin GmbH accepts no liability for loss of or damage to exhibits, except in cases of willful intent or gross negligence. Messe Berlin GmbH is entitled to impose liens for the costs incurred.

The liability of the exhibitor to Messe Berlin GmbH covers the return of the rented area, swept clean, at the stated time, irrespective of whether the exhibitor or a third party is responsible for the dismantling work.

If any remaining charges are not paid by the last exhibition day exhibition management is entitled to seize the exhibitor's items and use these as security against his outstanding debts. Exhibition management may sell these items and use the proceeds to cover exhibitor debts.

## **16 Rental of chalets**

Chalets can be registered online at [www.ila-berlin.com](http://www.ila-berlin.com). According to the Brandenburg Construction Regulations (BGBO), the chalet modules, as so-called regular temporary structures, including all equipment as well as the external extensions, are in all cases classed as special structures similar to those used for places of public assembly within

the exhibition grounds. Installations in and extensions of the chalet units, terraces and all free-standing chalet extensions that are carried out by exhibitors for the purpose of the event require inspection and clearances. Inspection fees will be additionally invoiced. All construction details for the chalets including curtaining/covering constructions must be handed into the technical department of Messe Berlin GmbH 10 weeks before the beginning of the exhibition at the latest. After the event the chalets have to be returned in the initial conditions. Any damage caused is at the expense of the exhibitor.

Details can be found in the "Technical Notes: Chalet-modules" on ILA exhibition ground (BECA) as a supplement to Technical Guidelines by Messe Berlin GmbH (see [www.ila-berlin.com](http://www.ila-berlin.com)).

## **17 Rental and installation of containers**

Should an exhibitor for whatever purpose require standard containers, he has to order them in time (order form in the BECO Webshop).

The exhibitor is responsible for cleaning the containers and the waste removal within a vicinity of 5 m around the containers. He can also have this service performed by the official service provider of Messe Berlin GmbH (order form in the BECO Webshop).

## **18 Security and order**

### **18.1 Security regulations**

In collaboration with the competent public authorities and agencies, security regulations were compiled which may be examined in their entirety only on request. The exhibitor is obliged to ensure that personnel in his employ have read the "ILA Security Notes for Exhibitors and Security Staff" and that a copy is displayed in full view within his stand area.

As an integral component of the security concept, the Security Regulations will be provided to exhibitors along with the admittance documentation and available online at [www.ila-berlin.com](http://www.ila-berlin.com).

The exhibitor must furthermore ensure that his employees are familiar with their hall and stand numbers with emergency escape routes and with the location of the nearest fire extinguisher/fire alarm box, and that they can instruct others as to the location of the nearest first-aid station on the grounds.

For quick reactions in case of security problems Messe Berlin GmbH operates a security center on the ILA grounds and during the

event the Brandenburg State Interior Ministry maintains operations control centers for emergency services and the police.

### 18.2 Barriers, fences

Messe Berlin GmbH commits itself only to securing, by means of strong fences, the exhibition grounds on the external borders and between the grounds and the airport flight operations area. Within the borders of the exhibition grounds, Messe Berlin GmbH plans to set up only a light barrier to mark off viewer areas.

If an exhibitor, for any reason whatsoever, wishes to have his exhibits securely fenced off he should submit his request using the relevant order form in the BECO Webshop.

### 18.3 Admittance to exhibition area/ passes

Admittance to the exhibition grounds is only permitted for ticket holders and holders of personnel badges.

These passes are issued in the names of the holders and must be filled in fully and correctly by the holders. They are not transferable and are only valid in conjunction with an official identity card or passport. Any misuse of these passes will result in confiscation without replacement. In the case of joint displays the passes re-requested will only be issued to the exhibitor acting as authorized representative.

Exhibitors may receive the following number of free passes:

For each aircraft on display 3 passes

Rental space up to 20 m<sup>2</sup> 3 passes

For each 10 m<sup>2</sup>

space or fraction thereof 1 pass

Additional exhibitor passes are available for a fee from the Official Service Provider of Messe Berlin GmbH.

The exhibiting firm in whose name the pass has been issued is responsible for any misuse by its employees.

Holders of official passes may enter the grounds two hours before the exhibition opens. All exhibitors and their personnel must vacate their stands and clear the premises no later than one hour after the official closing time of the exhibition.

Exhibitors' passes are also valid during the set-up and dismantling periods.

Exhibitor passes do not allow access to the flight operations areas or other areas belonging to the airport. Only flight and maintenance staff with special passes are entitled to enter and drive in these areas.

Upon presentation of a name list (form in the Messe Berlin online shop: BECO) all exhibitors will be provided with workers' passes free of charge for ancillary staff employed during set-up and dismantling. These passes are only valid during the setup and dismantling periods and do not entitle the holders to enter the exhibition grounds while the event is in progress.

### 18.4 Vehicle entrance to the exhibition area

Entering the exhibition grounds by vehicle is, as a rule, only permitted for holders of a special pass.

Vehicles without entry or parking permits may not enter the inner grounds while the event is in progress.

### 18.5 Parking

Parking facilities within the exhibition grounds are only available in limited numbers for Chalet lessees.

### 18.6 Animals

No animals whatsoever may be brought onto the exhibition grounds.

### 18.7 General inspection of the halls / outdoor area, surveillance, cleaning

Messe Berlin carries out regular inspection of the halls, in particular for the purpose of fire prevention (e.g. keeping emergency exits clear). This does not include surveillance of individual stands. Exhibitors themselves are in charge of and responsible for the surveillance of individual stands. Messe Berlin draws attention to the fact that access may also be granted to the halls outside the hours of the event, due to other events that may be taking place (such as exhibitor evenings), or cleaning work. Moveable objects should be locked up overnight.

Exhibitors may order security services from Messe Berlin. The deployment of such security services requires the prior written approval of Messe Berlin. Exhibitors are advised to take out suitable insurance cover.

#### Important notice:

**At night a section of the outdoor area is declared a military security zone and guarded by armed personnel and dog handlers.**

**The exhibitor is responsible for the security of his own aircraft.**

## 19 Cleaning and waste disposal

### 19.1 Cleaning

Exhibitors are responsible for cleaning their stands (excluding shell scheme stands). This work must be completed each day before the event opens.

If the exhibitor does not employ his own staff for stand cleaning, the Official Service provider of Messe Berlin GmbH (order form in the BECO Webshop) shall be appointed to carry out this work.

### 19.2 Waste disposal

Waste disposal shall be performed at the expense of the exhibitor. This includes the removal of refuse, within the set time limits, during and after stand setup and dismantling. The exhibitor commits himself to performing all work in an environmentally safe manner.

The exhibitor must observe the Environmental Guidelines contained in the BECO Webshop.

## 20 Catering

All catering is the responsibility of the -Official Service Provider of Messe Berlin GmbH (order form in the BECO Webshop).

## 21 Final provisions

### 21.1 Written form

Any deviations from the contents of this contract, as well as ancillary agreements, shall only be legally binding if they have been confirmed by Messe Berlin GmbH in writing.

### 21.2 German law

The mutual rights and obligations arising from this contractual agreement and as a result of this agreement are subject to the laws of the Federal Republic of Germany.

### 21.3 Place of performance and jurisdiction

Place of fulfillment is Berlin-Schönefeld. If the defendant is a businessman or a legal entity in the public domain, or if the defendant has no general place of jurisdiction within Germany, the place of jurisdiction is Berlin or the defendant's own place of jurisdiction.

### 21.4 Redemptory clause

If any provisions of these terms of business become invalid, the validity of the other provisions remains unaffected. The invalid provision shall be amended in such a way as to fulfill the intended purpose.

## 22 Data protection regulations

We collect use and process your personal data as the basis for, and for implementing and processing your contractual arrangements with Messe Berlin GmbH, and for market research purposes. This data includes the company name and the name of the contact person, the street and building number, zip code and city, the country, telephone and fax number and email address. These details ensure your participation in the trade fair.

To enable us to meet our contractual obligations we pass on some of your data to subsidiaries of Messe Berlin and to partner firms, which we have appointed to process the personal data. These basic services include, for example, accounting, stand construction, the basic entry in the Quickfinder and in the Virtual Market Place®.

Provided that you have given us your consent we also pass your data on to other companies in our group and to official partner companies to enable them to offer you their own additional services, for example special entries in the Quickfinder and in the Virtual Market Place®, special stand construction services, catering, logistics etc., as well as to the official foreign representatives of Messe Berlin GmbH and its partner companies abroad.
