

**Oliver Reinhardt – Chief Risk and Certification Officer (CRCO)
Volocopter GmbH**

An Aerospace Engineer by training, Oliver Reinhardt has played an instrumental role to more than 9 aircraft certification projects in the past 25 years. As CTO at Flight Design, he managed the Design Organization setup and certified, manufactured, and delivered aircraft to 42 countries world-wide. In addition, he served as industry representative on several major international Aviation Rulemaking Committees. At Volocopter, Oliver combines his aviation and additional automotive background to manage all product and corporate certification aspects, along with the Quality, Risk, Safety, and Compliance Management Systems.
