

SPACE FOR EARTH

JOIN US AT THE LARGEST SPACE EXHIBITION IN EUROPE

At ILA Berlin 2020 the global space community will come together for the largest exhibition of its kind in Europe.

Space companies, government agencies and the science community will present innovations and developments in space – across borders and countries. In one word: The event is interdisciplinary in scope and global in scale.

BE SURE TO MAKE IT!

Meet international stakeholders at ILA Berlin. Create new projects, connect and discuss important topics from big data to the future of mobility.

BECOME AN EXHIBITOR!

Right beside the ILA Space Pavilion there are international space companies and agencies busy at stands of their own. Come along and open up your own booth/stand in Hall 4.

SPACE UNDER ONE ROOF
4,500 m² space for Space
ILA's unparalleled space show to be continued in 2020

ILA SPACE PAVILION

- ▶ Joint space exhibition of the partners Federal Ministry for Economic Affairs and Energy (BMWi), European Space Agency (ESA), German Aerospace Center (DLR), German Space Industry/BDLI
- ▶ Top-level conferences featuring scientific, technological and societal issues of space such as digitization, mobility, security and the environment
- ▶ VIP tours and space events, e.g. press briefings, receptions, contract signings etc.
- ▶ Networking with established space companies and agencies as well as start-ups

IF WE INVEST IN SPACE, WE INVEST IN OUR FUTURE.

INNOVATIONS FOR LIFE ON EARTH

- ▶ Spaceflight is more important than ever.
- ▶ Space systems and applications are essential to address current and future environmental, transportation, security and industrial policy challenges.
- ▶ The ILA Space Pavilion and its conference program clearly focus on topics, such as environmental and climate protection, broadband coverage, digitization and networking ("Industry 4.0"), reconnaissance and security, international competitiveness and cooperation, and access to space.

HIGH-POTENTIAL SPACE BRANCH

- ▶ Advances in space technology are a driving force for the economy as a whole.
- ▶ Space innovations support and improve life on earth.
- ▶ ILA's Space Segment "Space under one roof" features international major advances in space technology, space missions to Moon, Mars or asteroids, astronautical space flight as well as next steps in new launcher technologies and in space applications, e.g. EO, SatCom, Nav...

Prof. Jan Wörner
Director General ESA

Prof. Dr. Pascale Ehrenfreund
Chair of the Executive Board DLR

Marco Fuchs
Vice President Space
BDLI, CEO OHB SE

"The ILA Berlin is a showcase for peaceful cooperation in space for a better world on earth."

"The ILA Berlin visualizes not only to politics and economics but to every single person very closely why the research of aviation and aerospace is becoming every day more essential for all of us."

"Without space, there is no future. In the ILA Space Pavilion you can experience how we use space technology to shape digitization."
