

SPACE FOR EARTH

JOIN US AT THE LARGEST SPACE EXHIBITION IN EUROPE

At ILA Berlin, the global space community will come together in 2020 for the largest exhibition of its kind in Europe.

Aerospace companies, the science community and government agencies will present innovations and developments in space – across borders and countries. In one word: The event is interdisciplinary in scope and global in scale.

BE SURE TO MAKE IT!

Meet international stakeholders at ILA 2020. Create new projects, connect with peers and discuss important topics from big data to the future of mobility.

BECOME AN EXHIBITOR!

Right beside the ILA Space Pavilion there are international space companies and agencies busy at stands of their own. Come along and open up your own booth/stand in Hall 4.

SPACE UNDER ONE ROOF
4,500 m² space for Space
ILA's unparalleled space show to be continued in 2020

ILA SPACE PAVILION

- ▶ Joint space exhibition of the partners BMWi, ESA, DLR, German Space Industry/BDLI
- ▶ Top-level conferences featuring scientific, technological and societal issues of space such as digitalization, mobility, security and the environment
- ▶ VIP tours with selected delegations
- ▶ Networking with established space companies and agencies as well as start-ups

IF WE INVEST IN SPACE, WE INVEST IN OUR FUTURE.

INNOVATIONS FOR LIFE ON EARTH

- Major advances in technology
- Space systems and applications are essential to address current and future environmental, transportation, security and industrial policy challenges
- The ILA Space Pavilion and its conference program clearly focus on topics, such as environmental and climate protection, broadband coverage, digitalization and networking („Industry 4.0“), reconnaissance and security, international competitiveness and cooperation, and access to space.

HIGH-POTENTIAL SPACE BRANCH

- Major advances in space technology are a driving force for the economy as a whole.
- Space innovations support and improve life on earth.
- ILA's Space Segment „Space under one roof“ features international major advances in space technology, space missions to Moon, Mars or asteroids, astronautical space flight as well as next steps in space applications, e.g. EO, SatCom, Nav, new launcher technologies...

Jan Wörner
ESA Director General

„The ILA Berlin is a showcase for peaceful cooperation in space for a better world on earth.“

Prof. Dr. Pascale Ehrenfreund
Chair of the Executive Board (DLR)

„The ILA Berlin visualizes not only to politics and economics but to every single person very closely why the research of aviation and aerospace is becoming every day more essential for all of us.“

Marco Fuchs
BDLI Vice President
SPACE, CEO, OHB SE

„Without space, there is no future. In the ILA Space Pavilion you can experience how we use space technology to shape digitization.“
